[melwang@stanford.edu](mailto:melwang@stanford.edu)

### SKILLS

Photoshop	C++/C
Illustrator	HTML/CSS
Sketch	Javascript
InVision	Java
Framer	C# Unity
Flgma	Arduino

### ORGANIZATIONS

Stanford Women in Design  
CS+Social Good  
XTRM Dance Team

### AWARDS

Microsoft Holohack Silicon Valley Winner 2017  
Yau International Physics Competition Finalist  
USA Physics Olympiad Semi-Finalist  
National AP Scholar

### EDUCATION

#### Stanford University

2021 MS Computer Science  
2020 BS Product Design | GPA 3.9 | GRE Verbal 163 Quant 170

Relevant Coursework: Advanced Human Computer Interaction Design, Virtual Reality Art, Product Design Methods, Web Applications, Design and Manufacturing, Principles of Computer Systems

### EXPERIENCE

#### JUN 2019 **Product Design Intern**

SEP 2019 *AQ - Tokyo, Japan*

Conducted Expert Review of Japanese MS Patient targeted mobile application for pharmaceutical client.  
Synthesized 10 interviews into a cohesive report of 60+ insights and recommendations for a site sourcing information for neurology specialists.  
Designed and developed a scenario-based game that transforms players' perceptions of ethics in technology.

#### JAN 2019 **A16z Gen.D Mentorship Program**

JUN 2019 *Andreessen Horowitz - Menlo Park, CA*

Selected as part of the Cycle VI cohort from 200+ applicants for a selective mentorship program connecting college design students with design professionals from companies within the a16z portfolio.

#### JUN 2019 **Demo Engineering Intern**

SEP 2019 *Salesforce - San Francisco, CA*

Transformed new hire onboarding experience by condensing 100+ tasks and resources into a holistic Salesforce native web app that utilized pre-programmed tasks to provide appropriately scoped and timely information to new hires and managers.  
Increased safety and efficiency of Dreamforce booth staffing app accessed by 1,500+ employees by creating analytics dashboards to visualize staffing records.  
Directly impacted Salesforce platform sales by creating custom Salesforce communities and Apex integration with Google Maps API for customer demonstrations.

#### JUN 2017 **Product Management Intern**

SEP 2017 *Oracle + Netsuite - San Mateo, CA*

Created prioritized feature list for a developer community by surveying 100+ of the targeted SuiteScript developers.  
Responded to 50 internal developer product requests by writing feature requirements for future development.
